Not Monitored Comments

The facility is no longer using the 15-passenger vehicle (Ford Econo Club Wagon 350, VIN #1FBSS3BL8CDA56121) that was inspected during the previous visits. A different 15-passenger vehicle was inspected today (Ford T-150 Transit Van, VIN #: 1FBZX2ZMXGKB05619). Although the vehicle is manufactured with 15 seats: 13 in the rear, 1 driver, and 1 front passenger, there were only 8 seats in the rear available for use in the rear because 4 had been removed at the time of this inspection. The facility **CANNOT** transport more than 8 children until such time as the removed seats have been put back into the vehicle and the vehicle inspected and approved by CCLE staff.

The following repairs are needed:

- relocate child safety alarm shut deactivation button to inner window panel in front of last row (currently located behind the rear wheel well cover on the driver's side)
- replace missing handle for back door (passenger side)
- replace missing/broken casing for seatbelts (single seat in 2nd row on passenger side, 1st seat in 2nd row on driver's side); remove tape
