Under Background Screening Documents

Care Provider Background Screening Clearinghouse: The Background Screening Clearinghouse will generate e-mails and send you, the provider, a reminder at 60, 30, and 21 days prior to the retention date expiration. Please note, you will only receive that notification for the staff that are on your facility/home roster. Please keep your roster current in the Clearinghouse to avoid confusion on expiration dates, or unwanted notifications.

REMINDER: Communicable Disease Control

There are three common modes of transmission for the spread of microorganisms in child care settings: contact, droplet, and airborne. Many common infections encountered in the child care setting are transmitted by direct or indirect contact. Child care providers shall develop a written exposure plan regarding universal safety precautions, recommended by the Centers for Disease Control and Prevention (CDC), to follow in the event there is exposure to blood and potentially infectious fluids. Personnel are required to be educated on the homes exposure plan regarding standard precautions before beginning to work and annually thereafter. Written documentation that child care personnel have participated in the homes annual refresher education for the exposure plan, and understand the proper procedures in the event there is exposure to blood and potentially infectious fluids must be retained for 12 months and be available for licensing to review.

#### Owner/Director/Staff Responsible Comments

During the inspection, the Operator did not have any additional questions, comments or concerns that they wanted to include in the inspection.
