During the months of April and September of each year, at a minimum, each facility shall provide parents of children enrolled in the facility information regarding the potential for a distracted adult to fail to drop off a child at the facility and instead leave the child in the adults vehicle up on arrival at the adults destination. The child care facility shall also give parents information about resources with suggestions to avoid this occurrence. The department shall develop a flyer or brochure with this information that shall be posted to the

departments website, which child care facilities may choose to reproduce and provide to parents to satisfy the requirements of this paragraph. This September, a licensed Child Care Facility may send the Influenza Brochure and the Distracted Adult Flyer to all enrolled families electronically (email) and maintain the sent confirmation as proof of the required Influenza Brochure and Distracted Adult Flyer parental notification

The Rilya Wilson Act, in efforts to meet HB 1435 requirements, the Office of Child Care Regulation has developed the attached Rilya Wilson Act flyer that must be included in all initial and renewal application packets. This flyer outlines the providers responsibilities for ensuring continuity of care and reporting absences of children in out-of-home placement that are enrolled at their facility/home. This law effects all providers, not just licensed providers. Additionally, the Department has plans to add a statement on the licensure applications that requires the provider to acknowledge receipt of the reporting requirements of the Rilya Wilson Act during the next rule change Background Screening Update - All providers were required to re-screen child care personnel that had background screening dates completed prior to 2019, to address new screening components for existing staff

Screenings processed in the Clearinghouse will need to be RENEWED for an additional five (5) years.

The Clearinghouse system is set up to send automated notifications to providers at 60 and 30 days prior to the Retained Prints Expiration Date, only for employees that have been added to the facility roster.

Provider need to keep their roster current and notify licensing when their email address has changed

Failure to RENEW retention of prints will change the individuals status from Eligible to A New Screening is Required, which means that the individual needs to restart to have their fingerprints Live Scanned into the Clearinghouse system.

A Resubmission is NOT the same as a RENEWAL.

A Resubmission is used when an individual has had a lapse in employment greater than 90 days and triggers a rescreening of required components and a new screening status is issued. Please do not use Resubmission.

The RENEWAL:

Required every five (5) years beginning from when the fingerprints entered the Clearinghouse; this is not based on the eligibility date.

Used to continue retaining the fingerprints in the system for an additional five (5) years.

Triggers a rescreening of required components and a new screening status is issued.

Cost \$43.25 and can be paid using a credit card or electronic check within the Clearinghouse.

NEW FEE PAYMENT:

The Department will continue to email the licensure renewal notification/packets at least 90 days prior to your license expiration date.

The License Renewal Packet and supporting documents must be at least 45 days prior to the license expiration date, all renewal applications and renewal payments must be submitted online into the Cares renewal application portal.
